Dear Supervisor Marnell and Members of the Town Board:

One of the State Comptroller's top priorities is to establish and maintain a strong partnership between this office and local governments of New York State. A primary objective of this partnership is to identify areas where local governments can improve their fiscal operations and provide guidance that will assist local officials in making those improvements. We believe periodic contact with local governments constitutes one of the major components in effectively and efficiently accomplishing this objective.

In accordance with this objective, we recently conducted a survey at the Town of Schroon to assess its financial operations. This survey was limited to interviews with Town personnel and observations and inspection of financial records and reports. Our survey procedures were not designed to provide assurance to the financial statements, internal control structure or extent of compliance with statutory and regulatory requirements. During our survey nothing came to our attention indicating the Town was in need of further services from us at this time.

If you have any questions regarding our recent survey, please feel free to contact the Glens Falls Regional Office at (518) 793-0057.

Sincerely,

Jeffrey P. Leonard
Chief Examiner
